As a candidate in the National Board for Professional Teaching Standards candidate program I understand my instructors and associates provide a system for support and clarification throughout the NBPTS process. I understand the ATF/APS Candidate Support Provider (CSP) is not liable for a pass or fail on any component or assessment. I understand that it is my responsibility, as the candidate, to attend meetings, perform research, gather data and documents making final choices for all items, and submit materials in a timely manner. An ATF/APS CSP cannot be held liable for any candidate's success or failure. I understand that once my fee is paid there are NO refunds. I understand that participation in the support group does not guarantee successful completion of the process.
